## overview

### Medical Care Program Executive Office

- Primary focus: Support and Enhancement of Products in the Medical Domain

# Advanced Planning Briefing

## programs

- **ICD10/HIPAA 5010:** On January 16, 2009, Health and Human Services published two final rules:
  - Adoption of new HIPAA Electronic Transaction Standards enabling third party health care revenues/payments with a compliance date of January 1, 2012.
  - Adoption of ICD-10-CM and ICD-10-PCS code sets, with a compliance date of October 1, 2013
- **VistA Legacy Enhancements:** Improvements to the Medical and Administrative products within the VistA suite of applications
- **Pharmacy Re-Engineering:** Replaces existing VistA legacy Pharmacy applications for VHA.
- **Barcode Expansion:** Extends use of Bar Code technology via wireless handheld devices to positively identify patients during lab specimen collection, blood administration, medication administration, vitals sign collection, and to provide for wireless read only access to the patient's chart

# Advanced Planning Briefing

## programs

- **Compensation and Pension Record Interchange (CAPRI):** CAPRI-R will provide a set of integrated services to automate the overall Compensation and Pension (C&P) exam process and will provide a set of Veterans Health Information Systems and Technology Architecture (VistA) common services for common medical records access, including “single sign-on.” Additionally, the new CAPRI-R will support collaboration between Veterans, VBA Veteran Service Representatives (VSR), VBA Rating Veteran Service Representatives (RVSR), and VHA practitioners in establishing the clinical and service-connected basis for disability claims for compensation.
- **Revenue Improvement and System Enhancements (RISE):** RISE seeks to establish a comprehensive enterprise wide end-to-end revenue system that will result in efficiencies in revenue collections through the implementation of improved business practices, state-of-the-art software and enhanced VHA applications to support the Consolidated Patient Account Centers (CPAC)

## programs

- **Compensation and Pension Record Interchange (CAPRI):** CAPRI-R will provide a set of integrated services to automate the overall Compensation and Pension (C&P) exam process and will provide a set of Veterans Health Information Systems and Technology Architecture (VistA) common services for common medical records access, including “single sign-on.” Additionally, the new CAPRI-R will support collaboration between Veterans, VBA Veteran Service Representatives (VSR), VBA Rating Veteran Service Representatives (RVSR), and VHA practitioners in establishing the clinical and service-connected basis for disability claims for compensation.
- **Replacement Scheduling Application:** Provides a scheduling application that supports improved appointment processes and patient-centric view of appointments regardless of location of care. Addresses deficiencies including wait times, resource management, and user satisfaction in order to improve coordination of patient care.
- **Veteran Identification Card:** Provides support to Health Eligibility Center (HEC) in developing the system for creating, and issuing veteran ID cards.

# Advanced Planning Briefing

---

## programs

- **My HealtheVet:** My HealtheVet (MHV) is the gateway to Veteran health benefits and services. It provides access to: trusted health information, links to Federal and VA benefits and resources, the Personal Health Journal, online VA prescription refill
- **Revenue Improvement and System Enhancements (RISE):** RISE seeks to establish a comprehensive enterprise wide end-to-end revenue system that will result in efficiencies in revenue collections through the implementation of improved business practices, state-of-the-art software and enhanced VHA applications to support the Consolidated Patient Account Centers (CPAC)

## procurements

Procurement	Program	Scope/Requirements	Year
ICD10 Analysis	ICD10/HIPAA 5010	Conduct in-depth analysis of the Vista Legacy System to determine depth and complexity of effort required to implement/adopt the new ICD-10-CM and ICD-10-PCS Medical Data Code Set Standards modifications for diagnoses and inpatient hospital procedures	10
ICD10 Development	ICD10/HIPAA 5010	Perform all the necessary actions/activities/processes required to successfully implement the new ICD-10_CM and ICD-PCS code changes.	11
5010 Analysis	ICD10/HIPAA 5010	Analyze all potential Vista IB/AR & Pharmacy functionalities to determine the scope of effort required to comply with the new HIPAA 5010 & DO Electronic Transactions Standards	10
5010 Development	ICD10/HIPAA 5010	Perform all the requisite changes to Integrated Billing/Accounts Receivable functionality the Vista Legacy System to comply with the recent enacted HIPAA 5010 & DO Electronic Transaction Standards	10/11
VistA Legacy Enhancements	VistA Legacy	Minor enhancements from patient safety tickets and high priority enhancements	10/11

# Advanced Planning Briefing

## procurements

Procurement	Program	Scope/Requirements	Year
Pharmacy Reengineering Design and Build	Pharmacy Re-Engineering	Work to design and build Pharmacy Enterprise Product System for PRE (SWrI or replacement)	10/11
Bar Code Expansion – Analysis and Build	Barcode Expansion (BCE)	Analysis and possibly coding of Vista modules to interface with the new vendor product	10/11
CAPRI Re-engineering: Analysis and Development	CAPRI	Support for the analysis, development, testing, and implementation of a Reengineered CAPRI system fitting within the HealtheVet architecture	10
MCPEO Program Support	MCPEO	Provide services for continued successful implementation of products and programs under the purview of the Medical Care PEO .	10
RISE – Analysis and Development	Revenue Improvement and System Enhancements	RISE seeks to establish a comprehensive enterprise wide end-to-end revenue system that will result in efficiencies in revenue collections	10

# Advanced Planning Briefing

## procurements

Procurement	Program	Scope/Requirements	Year
CAPRI Legacy Enhancements – Analysis and Development	CAPRI	Support for the analysis, development, testing, and implementation of legacy CAPRI systems to comply with DoD integration efforts and VBA and/or legislative regulation changes.	10/11
Replacement Scheduling Application (aka Scheduling)	Replacement Scheduling Application (RSA)	Application that will assist with reducing clinic wait times, managing patient appointments, allows for better coordination of medical care between services at both the site level and between facilities, improves clinic efficiency and provides customer satisfaction for both providers (single calendar) and patients (preferred times)	10/11
VIC PIC Maintenance	Veterans Identification Card	Ongoing maintenance, technical assistance, and software modifications in order to maintain the Patient Image Capture Station (PICS) software component and PICS workstation for the Veteran Identification Card (VIC) program.	10
My HealtheVet: Program and Project Management	My HealtheVet	Provide program management services for implementation of the My HealtheVet Program.	10

# Advanced Planning Briefing

## procurements

Procurement	Program	Scope/Requirements	Year
My HealtheVet: Tools and Development	My HealtheVet	Access to HEALIA health search engine. Business Intelligence used to extract information and present it in a way that is meaningful to the business in order to help in the decision making process. Webtrends is a Web Analytics Solution	10
My HealtheVet: Operations and Help Desk Support	My HealtheVet	Provide services to ensure safe, consistent, controlled, and efficient operations of the My HealtheVet production environment and to provide world class support to the veteran and stakeholder community.	10
